GreenVision

RoHS Compliance
Super Silent
Long Lifetime
Auto-Restart Auto-Shutdown

We will provide customers with update information regularly. This product news is No. 20060704A

While building world-class products, TITAN Computer Company is committed to protecting the global environment by reducing or eliminating environmentally harmful substances from our products and processes. Today, TITAN is pleased to introduce a new Green Vision fan, which is especially designed with environment-friendly and high quality materials.

With a super quiet operation design, the Green Vision also uses a very high-end IC that features low power consumption, over-current protection..., and locked rotor protection that allows auto-restart and auto-shutdown to prevent the fan from overheating.

Moreover, the Green Vision is made with Z-axis bearing , which is an excellent bearing system that overcomes the weakness of sleeve bearing and performs even better than 2-ball bearing . Because of adopting a new airproof structure, the Z-axis bearing can make the fan run more smoothly and bring advantages such as lower noise and longer lifetime; therefore, the Green Vision is able to run silently and last for years.

Now, the Green Vision is available in 3 models: TFD-8025GT12Z, TFD-9225GT12Z and TFD-12025GT12Z

Models

■ TFD-8025GT12Z

■ TFD-9225GT12Z

■ TFD-12025GT12Z

Features

- Super quiet operation design
- Long lifetime and low power consumption
- Auto restart and auto shutdown function to prevent overheating
- Over-current protection
- RoHS compliance / only using environment-friendly materials

Specifications

Model	Rotate Speed	Rotate Voltage	Rotate Current	Noise Level
TFD-8025GT12Z(RB)	1400±10%RPM	12V	0.06A	<15.1DBA
TFD-9225GT12Z(RB)	1200±10%RPM	12V	0.12A	<11.6DBA
TFD-12025GT12Z(RB)	800±10%RPM	12V	0.05A	<16.1DBA
